

ELIE YAMMINE

Product Owner | Full Stack Software Developer | UI/UX Specialist

Jbeil, Lebanon | +961 71 141 691 | eliecyammine@gmail.com | elieyamine.com

PROFESSIONAL SUMMARY

Full Stack Developer and Product Owner with 6+ years taking web and mobile products from strategy and UX design through to code, deployment, and iteration — including fintech platforms. Fluent across React, React Native, Next.js, Node.js, Nest.js, and major cloud platforms, and equally effective setting product direction or shipping production code. Delivers high-impact solutions independently as a freelancer and within cross-functional teams under tight deadlines.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Dart, Solidity, HTML, CSS

Frameworks & Libraries: React, React Native, Expo, Next.js, Node.js, Nest.js, Express.js, Flutter

Databases: PostgreSQL, MySQL, MongoDB, Redis

Cloud & DevOps: AWS, Azure, Azure DevOps, GCP, Firebase, Docker, CI/CD, WHM, cPanel

Tools: Git, GitHub, Bitbucket, Jira, Postman, Figma, Adobe Illustrator

Practices: Software Architecture, REST API & GraphQL Design, Database Schema Design, UI/UX Design, Agile/Scrum, Code Review, Product Documentation

Spoken Languages: English (Fluent), Arabic (Fluent), French (Intermediate)

EXPERIENCE

Mojo Verse LTD

Aug 2024 – Present

Hybrid | Lebanon

Product Owner – UI/UX Specialist

Aug 2025 – Present

- Bridged product strategy and user experience by collaborating directly with the development team, contributing to front-end code reviews, and prototyping UI components in React/React Native to accelerate delivery cycles.
- Led end-to-end product discovery from ideation and UX research to delivery and iteration.
- Advocated for the end user while maintaining scope, timelines, and product vision.
- Designed intuitive, user-centered interfaces based on research, personas, and usability testing.
- Created wireframes, user flows, prototypes, and high-fidelity designs using Figma, and helped translate designs into pixel-perfect React components.
- Conducted user research, usability testing, and A/B testing to validate design decisions.
- Gained deep fintech domain expertise, contributing to technical architecture decisions for a digital financial platform including wallet, payments, and transaction management features.
- Managed and coordinated all financial and non-financial third-party integrations with local and international partners, ensuring seamless interoperability and compliance.
- Worked closely with Central Bank of Lebanon (BDL) regulations and requirements, ensuring product compliance with national financial standards and policies.
- Led product walkthroughs and live demos for partners, potential clients, and stakeholders, effectively communicating technical capabilities and business value.

Quality Assurance Lead

Aug 2024 – Aug 2025

- Led QA activities for web and mobile products by creating test plans, writing test cases, and ensuring features met quality requirements before release.
- Improved product stability, performance, and security by identifying issues early, tracking defects, and working closely with developers to resolve them.
- Supported development efforts by helping build and maintain web and mobile features using Expo and TypeScript while ensuring a high level of quality.

- Worked closely with product managers, designers, and developers to review requirements, validate features, and help deliver projects on time.
- Improved QA processes and mentored team members, collaborating with PMs, designers, and developers to validate features and deliver on time.

Freelance Software Developer

2019 – Present

Remote | Lebanon

- Architected and developed end-to-end web and mobile applications for diverse clients using React, Next.js, Node.js, Nest.js, Expo, PostgreSQL, and MySQL — from database design to deployment.
- Managed full project lifecycles, including requirements gathering, solution design, system architecture, API development, testing, deployment, and post-launch support.
- Delivered production-ready solutions on time and within budget while maintaining high standards of performance, security, scalability, and user experience.
- Collaborated directly with clients to understand business needs, provide technical guidance, define project scope, and translate requirements into practical solutions.
- Continuously explored emerging technologies, industry trends, and AI-powered development tools to improve productivity, automate workflows, accelerate delivery, and enhance overall solution quality.

EndSpace Mena

2022 – 2023

Hybrid | Lebanon

Software & DevOps Engineer

- Contributed to the full-stack design and implementation of web applications for international clients, including prominent Australian companies, writing production code in React, Next.js, and Node.js.
- Built and maintained RESTful APIs and server-side logic using Nest.js, integrated PostgreSQL and MySQL databases, and ensured scalable, maintainable codebases through code reviews and testing.
- Deployed and managed AWS and Azure cloud infrastructure, containerized services with Docker, and implemented CI/CD pipelines that reduced deployment times and improved release reliability.

Freelance Visual Designer

2018 – 2020

Remote | Lebanon

- Created graphics, logos, and UI/UX designs using Adobe Illustrator and Figma, and built responsive front-end prototypes in HTML/CSS/JS to hand off production-ready assets to development teams.

TheTechShop

2018 – 2021

Nahr Ibrahim, Lebanon

Owner & Store Manager

- Owned and operated a technology retail business offering comprehensive hardware and software services.

EDUCATION

Bachelor's Degree in Computer Science

2016 – 2020

AUL – Arts, Sciences and Technology University in Lebanon
