

# ELIE YAMMINE

Product Owner | Full Stack Software Developer | Visual Designer | UI/UX Specialist

Keserwan District, Lebanon | +961 71 141 691 | eliecyamine@gmail.com

## PROFESSIONAL SNAPSHOT

Versatile Full Stack Software Developer with 6+ years of hands-on experience architecting, building, and shipping web and mobile applications across the entire stack, including fintech products. Proficient in React, Expo, Next.js, Node.js, Nest.js, and cloud platforms. Equally comfortable owning product strategy, UI/UX design, and DevOps pipelines. Proven ability to deliver high-impact solutions independently and within cross-functional teams, making complex technical decisions under tight deadlines.

## AREA OF EXPERTISE

Full-Stack Development | Software Architecture Design | REST API & GraphQL Design | Database Schema Design | Visual Design | Task Management | Business Management | Research and Analysis | Product Documentation | Flow Building | Efficient Collaboration | HTML | CSS | JS | TypeScript | Dart | Flutter | React | React Native | Expo | Next.js | Node.js | Nest.js | Express.js | Solidity | PostgreSQL | MySQL | MongoDB | Redis | Docker | CI/CD | Amazon AWS | Azure | Azure DevOps | GCP | Firebase | WHM | cPanel | Bitbucket | GitHub | Git | Adobe Illustrator | Figma

## FUNCTIONAL ROLES

Product Owner | Full Stack Software Developer | DevOps | Visual Designer | UI/UX Designer | Cloud Infrastructure Specialist | Owner & Store Manager

## EXPERIENCE

### Aug 2025 – Present | Mojo Verse LTD, Lebanon | Product Owner – UI/UX Specialist

- Bridged product strategy and user experience by collaborating directly with the development team, contributing to front-end code reviews, and prototyping UI components in React/React Native to accelerate delivery cycles.
- Led end-to-end product discovery from ideation and UX research to delivery and iteration.
- Advocated for the end user while maintaining scope, timelines, and product vision.
- Designed intuitive, user-centered interfaces based on research, personas, and usability testing.
- Created wireframes, user flows, prototypes, and high-fidelity designs using Figma, and helped translate designs into pixel-perfect React components.
- Conducted user research, usability testing, and A/B testing to validate design decisions.
- Gained deep fintech domain expertise, contributing to technical architecture decisions for a digital financial platform including wallet, payments, and transaction management features.
- Managed and coordinated all financial and non-financial third-party integrations with local and international partners, ensuring seamless interoperability and compliance.
- Worked closely with Central Bank of Lebanon (BDL) regulations and requirements, ensuring product compliance with national financial standards and policies.
- Led product walkthroughs and live demos for partners, potential clients, and stakeholders, effectively communicating technical capabilities and business value.

### Aug 2024 – Aug 2025 | Mojo Verse LTD, Lebanon | Quality Assurance Lead

- Designed, developed, and maintained high-quality user interfaces and scalable mobile applications using React Native, TypeScript, and industry best practices.
- Ensured product excellence by enforcing coding standards, authoring reusable component libraries, and building a comprehensive suite of test cases that improved validation efficiency by over 40%.
- Optimized application performance, security, and usability by profiling and refactoring critical code paths, resolving complex bugs, and implementing performance monitoring solutions.
- Partner with cross-functional teams, including designers and product managers, to align technical requirements with business goals and meet project milestones.
- Fostered a culture of innovation by identifying process enhancements, contributing pull requests to shared repositories, staying current with mobile and web trends, and mentoring team members to deepen technical expertise.

#### **2019 – Present | Freelance Software Developer | Remote | Lebanon**

- Architected and developed end-to-end web and mobile applications for diverse clients using React, Next.js, Node.js, Nest.js, Flutter, PostgreSQL, and MySQL—handling everything from database design to deployment.
- Delivered production-ready solutions on time and within budget, managing full project lifecycles including requirements gathering, system architecture, API development, testing, and cloud deployment.

#### **2022 – 2023 | EndSpace Mena | Software & DevOps Engineer | Hybrid | Lebanon**

- Contributed to the full-stack design and implementation of web applications for international clients, including prominent Australian companies, writing production code in React, Next.js, and Node.js.
- Built and maintained RESTful APIs and server-side logic using Nest.js, integrated PostgreSQL and MySQL databases, and ensured scalable, maintainable codebases through code reviews and testing.
- Deployed and managed AWS and Azure cloud infrastructure, containerized services with Docker, and implemented CI/CD pipelines that reduced deployment times and improved release reliability.

#### **2018 – 2020 | Freelance Visual Designer | Remote | Lebanon**

- Created captivating graphics, logos, and UI/UX designs using Adobe Illustrator and Figma, and built responsive front-end prototypes in HTML/CSS/JS to hand off production-ready assets to development teams.

#### **2018 – 2021 | TheTechShop | Owner & Store Manager | Nahr Ibrahim, Lebanon**

- Managed The Tech Shop, a technology-based store offering comprehensive hardware and software services.

---

### **EDUCATION**

2016 – 2020 | AUL (Arts, Sciences and Technology University in Lebanon)

**Bachelor's Degree in Computer Science**

---

### **CORE COMPETENCIES**

**Product Tools:** Bitbucket, GitHub, Git, Adobe Illustrator, Figma, WHM, cPanel, AWS, Azure, Azure DevOps, GCP, Firebase, Docker, Jira, Postman

**Languages:** Fluent in English and Arabic, Intermediate in French.

**Tech Stack knowledge:** HTML, CSS, JavaScript, TypeScript, Dart, Flutter, React, React Native, Next.js, Node.js, Nest.js, Express.js, Solidity, PostgreSQL, MySQL, MongoDB, Redis, Docker, REST APIs, GraphQL.

**Key Skills:** Strategic Thinking, Leadership, Communication, Execution Focus, UI/UX Design, DevOps, Agile/Scrum, Code Review, Technical Architecture.
